OBJECTIVE

Frontend Developer skilled in React.js, JavaScript, UI components, and responsive design. Experienced in building dynamic interfaces, managing state with hooks & context, and integrating REST APIs. Seeking a frontend internship to build real-world applications and improve modern development skills.

SKILLS

Frontend:
React.js, React Hooks, Context API, React Router, JavaScript (ES6+), HTML5, CSS3, Responsive UI

Backend (Basics):
Node.js (learning)

Core Concepts:
OOP, DSA (Java), REST APIs, Component architecture

Tools:
VS Code, Git & GitHub, Postman, MySQL, IntelliJ IDEA

PROJECTS

DevHub – Developer Social Platform (React + Node.js)
- Built a modern feed UI with reusable components (PostCard, Modal, Navbar).
- Implemented Login/Register with state & modal system using React Hooks.
- Designed profile page, explore page, and responsive layouts.
- Working on backend using Node.js, Express, MongoDB (authentication & posts API).

College Document Portal (Java + JSP + JDBC)
- Created student portal to request and download academic documents.
- Built admin dashboard for approving/rejecting requests.
- Implemented CRUD operations and secure document access.
- Improved process efficiency and reduced manual workload.

Hotel Reservation System (Java + MySQL)
- Developed room booking application using JDBC and OOP principles.
- Managed booking validation, cancellations, and real-time availability.
- Implemented modular design with Room and Booking classes.

EDUCTION

Pacific School of Engineering — B.E. Computer Engineering
2022–2026 | CGPA: 7.7/10

SPR School — (Class 12)
2022 | 90.6%
